Word of the Week:

Environment

All the physical surroundings on Earth are called the environment. The environment includes everything living and everything nonliving. The nonliving part of the environment has three main parts: the atmosphere, the hydrosphere, and the lithosphere.

Physical

Linguistic

Cognitive

Social & Emotional

This week's 'Talk at Home' topic

Conservationists are celebrating after help being given to sea turtles has led to a boost in the animals' numbers. Scientists have been looking at the numbers of sea turtles across the world to try and understand how they're affected by humans. Sea turtles face lots of challenges - from pollution in the sea to rising water temperatures. However, sea turtle numbers are up where there have been projects to protect them and the places where they live. But not every species of sea turtle is doing well, and experts say the good work needs to be kept up.

Sea turtles 'bouncing back' after help around the world

In what ways do I support the environment?

Table Talk

If I could change one thing to help the environment, I would...

I think that...

I believe that...

In my opinion...

Some people may argue that..., however...

On the one hand...but...

I am convinced that...
